

AIA Seminar - Woods Powr Grip

Provider: Woods Powr-Grip Co., Inc. **Provider#:**
Program Title: Big Glass Challenges: What We've Learned **Program#:**
Length: 60 mins **Credits:** 1

This course will focus on the essentials of handling glass and the equipment needed for a successful lift. As glass gets larger and heavier, special considerations must be made both in the shop and in the field. Using the right equipment and right process for the job is necessary to keep everyone safe and productive.

Learning Objectives:

- Evaluating the job from delivery to installation
- Selecting the equipment
- Planning and executing a lift
- Challenges with large lites and unitized systems
