

## **FMB Scotland Board**

### **Board Member Nominations**

#### **Your opportunity to make a real difference**

As a membership organisation, all eligible Members in Scotland are invited to apply to be considered to sit on the Scotland Board. We are currently looking for four new board Members. By standing for a seat on your Board you could help shape the FMB while gaining valuable insights into the industry, and a range of new skills and useful contacts. Being an FMB Scotland Board Member should only involve attending a maximum of five meetings a year.

The FMB is run for its Members, but it is also run by its Members. You could be one of those Members who play a leading role in governing and developing our organisation. This opportunity enables you to voice your opinion and ideas to the FMB's Main Board as well as to serve as a representative for other members. By participating this way, you directly influence the evolution of the FMB.

Our current Scotland Board members are from diverse backgrounds and represent a cross-section of the FMB's membership. So whether you are a micro-business specialising in a particular type of construction work or a general builder employing a larger workforce, you would help ensure that the composition of our Scotland board reflects our wider membership in Scotland.

Positions are voluntary but the FMB ensures reasonable hospitality and expenses incurred are covered in accordance with the budget guidelines in force at the time. Notifications of meetings and minutes of meetings and agendas are provided in a timely fashion. The FMB looks to their local Board members to attend these meetings and to actively participate in discussions in line with the objectives of the FMB. We invite speakers from The Scottish Government, the legal profession, the CITB to attend our meetings to share relevant insights.

Do you think you have the passion, commitment and ambition to help the FMB build on its history and continue to improve for the benefit of its Members and the wider industry? If so, get in touch. We'd like to hear from you!

**All that we ask is a little of your time and most of all, a passion to put something back into the Construction Industry and help us make a difference.**
