

Wikis and Free and Open Source Software - Moreton Bay Regional Council

Use Free and Open Software (FOSS) to boost your library's creativity and the SLQ wiki to create a collaborative community project

**Redcliffe Library meeting rooms, 476 Oxley Ave, Redcliffe
Friday 31 August 2018**

This workshop is designed for public libraries who would like to explore the potential of Free and Open Source Software (FOSS) as a community resource, and be introduced to the SLQ Wiki as a knowledge base and resource for engagement development.

Participants will explore the FOSS ecosystem, be introduced to the SLQ Wiki as community orientated documentation platform, then participate one of The Edge's most popular professional development workshops.

Participants will achieve practical skills in one or more creative FOSS programs, learn how to edit and export content from the SLQ Wiki and learn how to engage community in the process of developing a workshop.

4.30 – 4.45pm	Wrap-up/ learning outcomes /action plan /evaluation	Mick Byrne and Andrei Maberley

Presenters

Mick Byrne's been a familiar face in the Queensland youth arts scene for the better part of 15 years and loves having the opportunity to collaborate with and mentor young creatives, or as he puts it, "live vicariously through their work". During his time in the youth arts sector, Mick has worked with groups such as Speakout/Human Ventures, Youth Arts Queensland and Access Arts Inc, where he was spotted by The Edge.

Mick bring ideas to fruition at The Edge. He really jumps at the chance to get his hands dirty; cutting up MDF in a workshop or testing power tools before they hit the shelves. Mick is also involved in mentoring and supervising The Edge's programming interns.

Andrei Maberley is a Program Officer at the Edge, State Library of Queensland. Andrei works to ensure the programs of The Edge aren't confined to our South Bank building. This mandate sees him travelling around our wonderful state, leaving rebuilt computers, DIY robots and smiling faces in his wake.
