## Policy Development: Engaging Local Decision Makers in Local Prevention Issues

**Goal for the Day:** Enhance knowledge and skills to increase and support collaboration for prevention policy planning, education and implementation at the local level.

### Learn about the results of the Local Opinion Leader Survey:

- Describe the implications and strategies for regional and municipal level use with decision makers.
- Develop messages and communication ideas to use with diverse stakeholder groups to share results.

### Review and share successful policy initiatives utilized by peers at local prevention organizations:

- Learn from your peers about their experiences in policy education, development and implementation.
- Examine and contribute to “bank” of local initiatives throughout Vermont for continued resource sharing.

### Examine state level legislation that impacts prevention policy at the local level:

- Review H.511 in depth as it impacts housing, school, municipalities, employers, youth and driving.
- Review other pending or passed legislation (tobacco, cannabis, alcohol related) for emerging potential policy impacts at the community level.

Attendees are encouraged to bring sample policies to share during networking opportunity. To have a topic included for discussion during networking, please email a description to [bethshradr514@gmail.com](mailto:bethshradr514@gmail.com)

### Who should attend?

This training is designed for the Vermont Department of Health Regional Prevention Partnerships (RPP) grantees and sub-grantees, VDH staff, and community stakeholders contributing sustainability planning.

### Registration

This training is offered at **NO CHARGE** and is funded through a grant from the Vermont Department of Health, Alcohol and Drug Abuse Programs (ADAP).

Save the Date: May 16, 2018. Next RPP Workshop: “Collaborative Strategies with Law Enforcement”
