

We Feed Those That Are Unable To Feed Themselves

The service that Shepparton Foodshare has provided equates to more than \$4 million dollars in savings to the local community

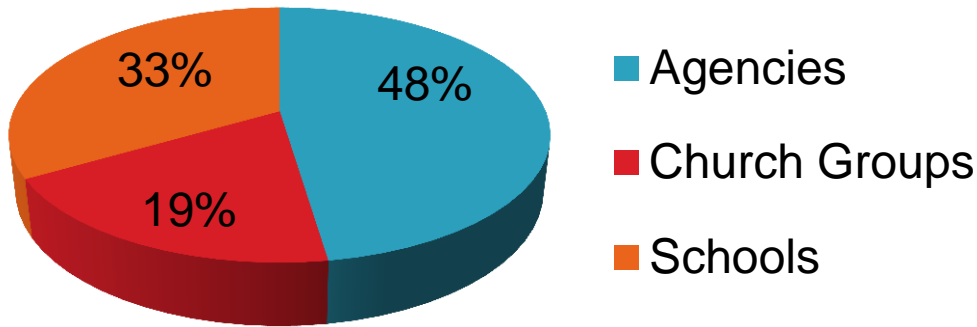

Who Is Shepparton Foodshare?

Since 2012 we have been rescuing and redistributing fresh and nutritious food to those in need in our local community

- We partner with supermarkets, business and other food rescue agencies across the state to provide nutritious food from every food group
- To efficiently and effectively distribute food we have two part-time staff and more than 20 volunteers

Who Does Foodshare Assist?

... Single people, couples, families, homeless people, refugees, indigenous people and people from a non English speaking background, children or anyone who is disadvantaged or in need.

Demand is up by 15% on last year

The need for this assistance within our community is now greater than ever before

What Is Foodshare's Value To The Community?

The Facts ...

- It costs Foodshare 9 cents to rescue and distribute \$1 worth of food
- Or, 22 cents to rescue a kilogram of food (with a value of \$2.50 per kg)
- For every \$1 donated we rescue approximately 5kg of food valued at \$12.50
- Every \$1 donated equates to 10 meals (assuming each meal is 500gms)
- Reduced landfill due to 1.5 million kilograms of food being rescued that would have ended up in landfill
- More than 20 volunteer opportunities = skill development, pre-employment, job readiness, community connectedness and opportunities for those wanting to give back to the community

**Did your child get
lunch today?**

This little boy didn't
