Keynote Speaker: Raju Kucherlapati, PhD

Dr. Kucherlapati is Chairman of the Board of Directors and Scientific Advisory Board Member of Enlight Immersive Health. He is the Paul C. Cabot Professor of Genetics and a Professor of Medicine at Harvard Medical School and was the first Scientific Director of the Harvard-Partners Center for Genetics and Genomics. He has appointments at the Brigham and Women's Hospital and the Massachusetts General Hospital in Boston.

Dr. Kucherlapati's recent research contributions include his participation in mapping and sequencing of the human genome. He is continuing his efforts in finishing the human genome sequence and is participating in the sequencing of the mouse genome. Dr. Kucherlapati currently serves as a member of National Advisory Committee for Human Genome Research at the National Institutes of Health.

Educational Objectives:

- Discuss the role of personalized medicine and its applications to improve clinical practice and lower healthcare costs
- Recognize the clinical and scientific data that support the use of personalized medicine and genetic testing in various therapeutic categories
- Understand the role of diagnostic testing in aiding the care plan to enact precision therapies and identify hereditary health risks
