

From U2 to Rock Star

Jeff Stasiuk
General Manager, Vancouver
EM Plastic & Electric

Jeff is currently General Manager of EM Plastic & Electric, a major supplier to the Sign Industry. With an education in Engineering and Operations Management, he has experience in all facets of the sign industry. Jeff has been a supplier to this industry in BC for over 20 years, first through his own company Taca Sign Supplies, and then through Laird and EM Plastics. He has distributed, sold, and serviced cutters, CNC routers, printers and laminators, along with all supplies, and has been an integral part of the local BC scene as it's evolved from hand painters, to vinyl cutters, to digital printers. Helping all manner of sign companies both big and small, gives Jeff a unique perspective on their resource requirements; what they need to succeed, who they need to grow, and how they might get the people and resources required.
