Solving the Fraction Mystery Grades TK-8

Fractions are conceptually difficult for many. Moving beyond pizza and pie models, we will explore the many ways for developing fraction understanding including using concrete manipulatives. Throughout this **two-day** workshop participants will engage in conceptually meaningful mathematics tasks for all fraction operations. Participants will have the opportunity to gain a foundational understanding of fractions. Our journey through fractions will conclude with connections to ratios and proportional reasoning.

Audience: Administrators, Coaches, Teachers, & Paraprofessionals

Register Now!

<http://solvingfractionmystery.eventbrite.com>

Cost: \$200 per participant

Handouts and lunch will be served. • Space is limited, register early.
