

Environmental Stewardship Event

The University of Maryland Extension Program, St. Mary's County Government Department of Public Works and Commission on the Environment are offering rain barrel and composting workshops to residents. The rain barrel session will focus on the practical uses for rain barrels and how they reduce the impact of runoff on our local waterways and the Chesapeake Bay. Participants will have the opportunity to purchase rain barrels, and learn the techniques for later installation. The composting session will include basic information/demostration on starting to compost at home. We will also be hosting a workshop on shoreline health for waterfront property owners.

Pre-registration required - Space Limited.

Checks payable to: University of Maryland

Register using the form below or go online at: www.extension.umd.edu/watershed

** Additional service fees associated with online registrations.*
