

TOGETHER SUMMIT 2017

Learning Objectives

At the end of the Together Summit 2017, participants will be able to:

1. Define the Lake County Promise and how everyone shares in its fulfillment.
2. Describe the community-driven process of assessing the health status of Lake County, prioritization of needs, and implementation of evidence-based actions to address those prioritized needs.
3. Describe the role community and community organizations have in implementation of the Lake County Community Health Improvement Plan through direct action, alignment of strategies, and the contribution of resources to help accomplish the plan's objectives.
4. Describe the prioritized health needs identified in Lake County and how policies, systems and environmental strategies can address those prioritized needs.
5. Define how to accomplish shared accountability for community health so that the Lake County Promise is fulfilled.
6. Describe how assets (human, financial, expertise) can be leveraged toward accomplishing shared accountability.
7. Identify short-term action, mid-term and long-term action that can be taken toward accomplishing shared accountability related to the Lake County Community Health Improvement Plan.
