

Dr. Victoria Kramkowski is Stormwater Charge Program Coordinator at the City of Mississauga where she manages Mississauga's stormwater charge program and the associated subsidy, credit and home visit programs. She has also spearheaded several unique outreach initiatives including ArtWorkX, an event which merges infrastructure and art in order to engage the public with their hidden city. Victoria previously worked for the provincial government and has taught, published and consulted on topics including scenario planning, environmental assessment, urban planning and natural resources management. Victoria has a Master of Planning and Environmental Studies and a Ph.D. in Environmental Planning from York University.
