THE OPEN PAYMENTS TRACK TEST

27 SEPT 2017

CLICK ON DATE TO **REGISTER** NOW!

RAINMAKING LOFT 1 ST KATHARINE'S WAY | LONDON E1 1UN

A PIVOTAL MOMENT?

The Open Payments Track Test is sponsored by Ixaris and the Open Payments Cloud, in association with Magna Carta and RainMaking Innovation.

We've crunched the data and the insights, now it's time to test open commercial payments out on the track with the business community.

The Open Payments Track test conference brings together developers and innovators with commercial payment industry incumbents to explore the impact of the open payment ecosystem, and highlight the opportunities for customers and market participants from all sides.

Firing the starting gun, the opening lap tests demand for open payments from all sides of the commercial payment ecosystem with sessions from financial institutions, infrastructure providers, customers and innovators.

After lunch, our developer lap explores the challenges and practicalities of open payments adoption to inspire the solutions that will help overcome them.
