TAKE A TAXI-METER

We recommend taxi as the best transportation to conference venue. Thai taxis are convenient, reliable, and safe. In addition, public taxis from airport are certified by Airports of Thailand, this ensures extra security and standard fare.

QUICK NOTES ON THAI TAXIS

Meter - Make sure driver switch on the meter

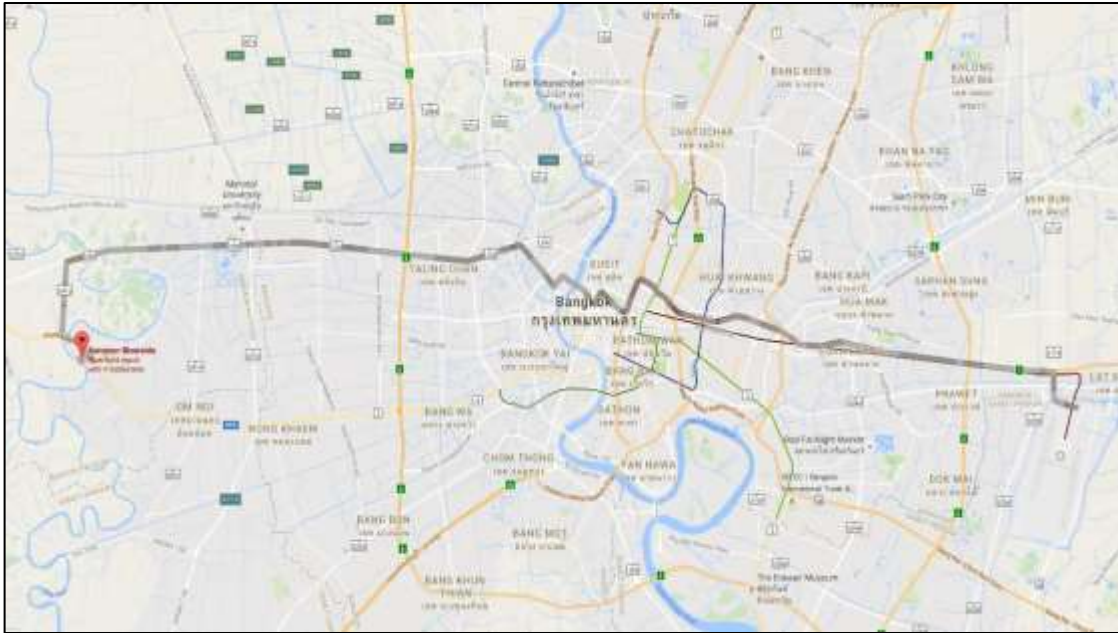

Extra charges - The flag fare or starting fare is 35 Baht, but there are other charges that sometimes apply on top of the meter fare especially if you catch a taxi at Bangkok airport. However, there is no additional surcharge for night-time or 'out of hours' pick-ups.

Airport surcharge - There is a surcharge of 50 Baht on top of the 35 Baht flag-fare if you take a taxi from the official ranks at Bangkok Suvarnabhumi or Don Muang airports. This won't show up on the meter and should be paid in addition to whatever the final meter reading is when you reach your destination.

Toll-way/Express way charges - You may be asked if you want to take the express-way to avoid traffic. It's usually the best option and will save time. You are responsible for this fee. The driver will usually hand you the toll-way receipt.
