

ARM Introduction to Mali Video and Mali Video Codec

Summary:

This live WebEx delivered course provides a technical introduction to the Mali video processor and introduces video encoding/decoding operations. As well as hearing first hand from the engineer, you will also have the opportunity to ask questions to gain further specific knowledge on the subject.

Prerequisites:

None

Audience:

Systems engineers who are involved in product development

Length:

3 hours

Topics: During this course we will cover the following topics:

- Introduction to Video codec - fundamentals
- An overview of the Mali Video processor
 1. Mali Video Products
 2. Mali Video is a multi-standard solution
 3. Mali Video source and output frame formats
 4. Mali Video Multi-core Scalable Architecture
 5. System level data flow
- The decode operation in Mali video
- The encode operation in Mali video
