

PRESENTATION

Medical Research and Innovation - strategies for success

Presented by Dr Noel Chambers
CEO, National Foundation for Medical Research and Innovation (NFMRI)

MARK YOUR DIARY NOW

Do you need 2018 funding for your innovation?

Would you like to build your partner network?

Want to hear from a Medical Research and Innovation philanthropic leader?

This is a significant opportunity to meet an NFMRI funding expert. The NFMRI's primary objective is to support innovative areas of biomedical research to help benefit mankind through the prevention or eradication of diseases. This presentation will be of particular interest to biomedical researchers who wish to learn what NFMRI funding can do for their research.
