Debating the Future of Work: Challenges and Prospects Hilton Hotel Sheffield, 28-29 May 2019

Day One

09.30 - 10.15	Arrival, registration and refreshments
10.15 - 10.30	Welcome. Jason Heyes (Director of the Centre for Decent Work)
10.30 - 11.15	Introduction: The Future of Work centenary initiative
	This session will introduce the ILO's centenary initiative and describe
	the content and recommendations of the report due to be published in
	January 2019.
	Speakers: Maria-Luz Vega (ILO). Chair: Jason Heyes
11.15 – 12.45	Session 1: Labour market transitions, skills and lifelong learning
	Labour market transitions have become more challenging, particularly
	for young people. How might public policy better support transitions
	between education and work, between different jobs and between work
	and retirement? How are skill requirements changing? To what extent
	are skill mismatches and under-utilisation problems, who is affected and
	how should policy makers and social partners respond? What do we
	mean by lifelong learning and who will fund it? What can be done to
	ensure that opportunities for skill and knowledge acquisition are made available to all workers?
	Moderator: B Srinivas Reddy (ILO)
	Speakers: Burt Barnow (George Washington, USA), Seamus
	McGuinness (ESRI, Ireland), TBC.
12.45 - 13.45	Lunch
13.45 – 15.15	Session 2: New forms of employment and the future of social
	protection
	The growth in non-standard forms of employment is associated with an
	increase in the proportion of workers who lack employment rights and
	social protection. How might labour laws and social protection rules be
	re-designed to make regulation more inclusive?
	Moderator: Kostas Papadakis (ILO)
	Panel members: Jill Rubery (Manchester, UK), Janine Leschke
	(Copenhagen, Denmark), Colin Williams (Sheffield, UK)
15.15 - 15.30	Refreshments
15.30 - 17.00	Session 3: Diversity and inclusion
	Despite the widespread implementation of public policies and
	organisational practices intended to promote equal opportunities,
	prevent discrimination and ensure workforce diversity, discrimination
	on the grounds of gender, race and disability remains pervasive and
	other obstacles to labour market participation persist. Many workers,
	therefore, continue to experience disadvantage in relation to their
	employment opportunities, pay, training and career development. What
	can be done to make labour markets more inclusive and bring about
	greater equality in the world of work?
	Moderator: Caroline O'Reilly (ILO) Speakers: Pauline Dibben (Sheffield, UK), Nelarine Cornelius (Queen
	Mary, UK), Anne-Marie Greene (Leicester, UK)
18.30 - 21.30	Drinks reception followed by Conference dinner at Kelham Island
10.50 - 21.50	Industrial Museum.

Debating the Future of Work: Challenges and Prospects Hilton Hotel Sheffield, 28-29 May 2019

Day Two

09.00 - 10.30	Session 4: Work, Caring and Wellbeing
	Societies are ageing and the number of workers with care
	responsibilities is increasing. What are the consequences for employers,
	workers and those they care for? What are the implications for gender
	inequality? How are employers and trade unions responding? How
	might policy makers address the issue?
	Moderator: Shauna Olney (ILO)
	Speakers: Susan Yeandle (University of Sheffield, UK), Janet Fast
	(Alberta, Canada), Marian Baird (Sydney, Australia)
10.30 - 10.45	Refreshments
10.45 - 12.15	
10.45 - 12.15	Session 5. Work organisation, technology and job quality
	It is often argued that new technologies and the spread of robotisation
	and automation will lead to widespread job losses in the near future.
	Others argue that the extent of job loss has been overstated and that
	technological developments will also lead to the creation of new jobs.
	Technological developments have clearly had consequences for the
	organisation of work by, for example, facilitating the emergence of the
	collaborative/sharing economy, enabling the growth of home working
	and providing employers with new means of surveillance. This session
	will assess the consequences for job quality and discuss the implications
	for policy and practice.
	Moderator: Damian Grimshaw (ILO)
	Speaker: Kirsty Newsome (Sheffield, UK), Alex Wood (Oxford, UK),
	Jonathan Payne (De Montfort, UK)
12.15 – 13.15	Lunch
13.15 – 14.45	Session 6. Governance, labour administration and social dialogue
	Changes in the world of work have created new challenges for labour
	administration bodies, such as labour inspectorates and public
	employment services. How have they responded to these challenges?
	How might labour administration be made more effective? What role can
	social dialogue play in ensuring effective labour governance and
	inclusive economic growth?
	Moderator: Ludek Rychly (ILO)
	Speakers: Christopher King (University of Texas at Austin), Jason Heyes
	(University of Sheffield, UK), Ryuichi Yamakawa (Central Labour
	Relations Commission and University of Tokyo, Japan).
14.45 - 15.00	Refreshments
15.00 - 16.30	Session 7. Work and the Environment
	Climate change and environmental degradation present substantial
