

Mildura Base Hospital presents

# Cardiac Rhythm Recognition & 12 Lead ECG Interpretation Study Day

## Target Audience

All clinical staff in acute areas where routine monitoring and performing ECGs are conducted.

## Program Outline

Principles of Electrophysiology

Cardiac Rhythm Recognition

- Normal & variations of normal
- Atrial Arrhythmias
- Junctional Arrhythmias
- Ventricular Arrhythmias

12 Lead ECG Interpretation

- Understanding lead placement and groupings
- Recognizing ischaemic and infarction changes (old & new)

This course will simplify cardiac rhythm recognition so that you can quickly & easily identify rhythm changes (why they occur, their clinical relevance and how to manage them). You will then be guided through the process of performing a systematic 12 lead ECG interpretation to assist in identifying the patient having or had an AMI.

## Details

Date: Thursday 23<sup>rd</sup> May 2019

Time: 0815 – 1630

Venue: SuniTAFE Auditorium

Cost: \$75 internal (MBH, Ouyen & RDHS)  
\$125 external

*Costs inclusive of GST and Eventbrite processing fee*

## Registrations

Bookings essential – register via
