

Dave Samson, Integration Lead, MAN Diesel & Turbo Canada Ltd.

Dave Samson, is the Former Managing Director of MAN Diesel & Turbo Canada Ltd., recently appointed as Integration Lead for MAN's new partnership with Aspin Kemp & Associates (AKA). Dave has been with MAN for the past ten years, during which he launched the Marine and Service Divisions in Canada to coincide with the introduction of the Canadian Government National Shipbuilding and Procurement Strategy. MAN now plays an integral role in the NSPS program supplying engines and support services to many of the Navy vessels, both new and existing.

In his new role as Integration Lead, Dave will spend his time working with AKA staff and his MAN colleagues to ensure the development of a successful business model capitalizing on the strengths of both AKA and MAN.

Dave and his wife Leslie enjoy life on a small hobby farm where together they raise angora rabbits, lambs, geese and border collies.
