Workshop: Make your PMO a Great PMO and keep it Great

As a PMO leader, five “greenfield” PMOs developed in the last 15 years; Peter Taylor knows first-hand that this can be a very rewarding experience, but equally not an easy one to find the right line to balance the projects and the business demands.

This workshop is about building, leading and sustaining your PMO.

Based on the research for the two books written by Peter Taylor, ‘**Leading Successful PMOs**’ and ‘**Delivering Successful PMOs**’, the workshop will identify the key failings of many PMOs and PMO leaders, guide attendees through the ‘**Balanced PMO**’ design developed by Peter, and will offer practical advice on making sure your PMO keeps relevant to your business with the ‘**Sustain Your PMO: Nine Easy Lessons**’, as well as presenting a new working model for project management.

The workshop will be an interactive experience with personal case study insights and the opportunity to spend more time with one of the world’s most experienced PMO leaders.

About the speaker

Peter Taylor is a PO expert who has built and led five global PMOs across several industries and has advised many other organisations on Change and Project strategy. He is also the author of the number 1 bestselling project management book. In the last 5 years, he has delivered over 350 lectures around the world in over 25 countries and has been described as ‘perhaps the most entertaining and inspiring speaker in the project management world today’. His mission is to teach as many people as possible that it is achievable to ‘work smarter and not harder’ and to still gain success in the battle of the work/life balance.
