## WORKSHOP on Diversity & Inclusion Making your differences your strength

Today's organizations, teams and leaders realize the importance and impact of leveraging diversity and fostering inclusion to enhance innovation and organizational success. They know that their differences are their strength.

Just having **diversity** alone is not enough. We have to embrace, appreciate and leverage this diversity.

**Inclusion** ensures that the mix works by fostering proactive behaviors that create an environment in which all people are actively included, heard, treated fairly and respectfully.

In this session we will explore techniques such as personality profiles and how they can support project teams to leverage their team diversity and foster inclusion, openness and collaboration to have stronger business impact. One tool we will working with is **DISC**.

### About our speaker:

**Valerie Villinger** is an experienced Organizational Development Consultant and Coach who facilitates transformational learning, innovation and change for leaders, teams and organizations. Before establishing herself as a consultant, she worked in Global HR and OD roles with a Global Pharma Company for nine years.
