They say, "Marriage might be war, but divorce is hell." This workshop provides insights into the legal, emotional, and enduring impact of that divorce can have on spouses and children. Participants will learn about contested and uncontested divorces, domestic violence scenarios, adverse childhood experiences, parenting strategies during divorces, and how to help some victims of domestic violence "escape" to a safe place for themselves and their children.

This multidisciplinary seminar will include attorneys, counselors, social workers, certified peer recovery specialists, and others, so a networking lunch will help participants build their referral base. Metro police, attorneys, counselors, and community organizations will provide information for a wonderful overview that you will not want to miss.
