Scope

The eCall TESTFEST event enables vendors to run interoperability test sessions using test descriptions provided in approved guidelines. The event will bring more value with the debriefing sessions where experts can answer technical questions or solve interoperability issues. Additionally, compliance and performance checking sessions will be scheduled to complement the interoperability.

This document is completed by the Host in advance of the opening of registration for an Interoperability Event to provide prospective participants at the event with an understanding of the environment within which testing will be conducted.

Participants at the Interoperability Event can use the information provided to decide if the Host hosting the event has the correct infrastructure to be able to allow the participant to complete several testing session at the Interoperability Event.

Venue Location

Kranj is a picturesque town situated on a rocky prominence between two alpine rivers - Sava and Kokra. It is situated on the junction of important routes, leading from Northern Europe to the Adriatic Sea and from Western towards Eastern Europe.

The old town centre is rich with cultural-historical sights. Therefore, it has been protected as a cultural monument since 1983. Important Slovenians contributed to the development of Kranj with their lives and achievements, one of them being the greatest Slovenian poet France Prešeren.

Kranj is the fourth biggest city in Slovenia and represents an important economic, cultural and sports centre of Gorenjska. It is a modern town with different faces, where the old is gently intertwined with the new; and where a harmony of images is achieved. Offering a cultural, historical, natural and technical heritage as well as pleasant atmosphere of a small town, Kranj is definitely worth a visit.

Moderate continental climate is characterized by warm summers and cold winters. An average temperature is 9,2 °C. The highest temperatures reach to approximately 29 °C in July, whereas the lowest temperatures are in January, around -1 °C. Temperature differences between day and

night can vary widely. The winds from the west and southwest bring quite a few rainfalls, which are fairly well distributed throughout the year. An average annual precipitation is 1352 mm.

VISAS REQUIREMENTS

In addition to a valid travel document, third-country nationals must hold a visa in order to enter the Republic of Slovenia. A visa is a permit issued by a relevant diplomatic mission or consular post of the Republic of Slovenia to a third-country national. If the circumstances under which a visa was issued have changed, border authorities may refuse entry and cancel the visa. On the web pages http://www.mzz.gov.si/en/travel_and_visa_information/visa_information/ you will find online visa applications, a detailed description of the circumstances under which a visa is required, and a description of different visa types. For additional information on visas, please contact Slovenian Ministry of Foreign Affairs via e-mail or telephone which can be found on the web page.

For the participants requiring visa, host (Sintesio) will issue the letter of guarantee. Before being submitted to the applicant, letters of guarantee should be authenticated at the nearest administrative unit. It is advised, that participants requiring visa, start visa application procedure at least 1 month before the start of the travel.

TRAVEL TO VENUE

Access to Kranj

Automobiles : The distance from other cities or towns: Ljubljana 24 km, Bled 28 km, Maribor 150 km, Klagenfurt 60 km, Muenchen 400 km, Trieste 150 km, Zagreb 160 km; Highway Ljubljana - Jesenice pass Kranj by its North-East corner .

In town transport

Kranj is small town, all main interests in Kranj are almost walking distance. Venue is located approx. 2km away from the nearest hotel. In town public transport (buses and shuttles) is available. Daily ticket is very affordable (1€), however with the bus every one hour on the route between hotel and venue location.

During the event, Sintesio will organize transport by shuttles.

Climate

Kranj's is a mild, healthy sub-Alpine climate with the longest swimming season of any Alpine resort. The ridges of the Julian Alps and the Karavanke protect it from the chilly northern winds. During the summer months there is no fog. The average monthly temperature in October is 15°C.

Electricity

220 V/50Hz
