The Speaker Sisterhood's Signature Speaker Development Program

The Secret Life of Speaking Up takes curious adventurers on a journey through their stories, loves, passions, personal power, and dreams through a series of public speaking experiments. These experiments give Speaker Sisters the chance to do creative exploration, free write, deliver a speech they crafted themselves, gather feedback, reflect, and celebrate each step of the journey.

This program is built on the philosophy that each public speaking opportunity is a chance to discover, awaken, and ultimately create the voice each speaker will present to the world.
