

Why join the Speaker Sisterhood?

The Speaker Sisterhood Signature Speaker Development Program

The Secret Life of Speaking Up takes curious adventurers on a journey through their stories, loves, passions, personal power, and dreams through a series of public speaking experiments. These experiments give Speaker Sisters the chance to do creative exploration, free write, deliver a speech they crafted themselves, gather feedback, reflect, and celebrate each step of the journey.

This program is built on the philosophy that each public speaking opportunity is a chance to discover, awaken, and ultimately create the voice each speaker will present to the world.

You'll get:

- Increased confidence and comfort while speaking in front of groups.
- Improved listening skills and ability to give constructive feedback.
- Ease and grace when put on the spot.
- Ability to initiate and navigate difficult conversations.
- Self-assurance while selling, pitching, and negotiating.
- Enhanced skills for podcasting, webinars, and interviews.

Gain access to:
