

FFA Brokers Association

Tanker Freight Derivatives Forum

19 February 2018 | The Connaught, London

Coinciding with IP Week, the Tanker Freight Derivatives Forum is the largest FFA gathering worldwide for tanker and wet commodity traders. Bringing together freight market insight from leading analysts with open discussion on contracts and industry developments, this is the key market Forum hosted annually by the FFABA for participants and others interested in trading freight rate volatility.

The FFABA is the global association of FFA brokers and is supported by the Baltic Exchange.
