

What is included in each theme?

Communication - engaging activities to build communication skills for work and life in general.

Well-Being - maintain your well-being at work and home, both physically and mentally.

Customer Service – Multiple Perspectives! Come along and see how Estates and Facilities approach customer service in a very particular way, putting it at the heart of everything that they do and every service they deliver on Campus

Efficiency and Effective Teams – Get to know your colleagues more by working together in teams on different challenges

Creativity and Innovation - let your creative side out by using your senses and the latest technology.

Leadership - what does your ideal leader look like and could you become one yourself?

Performance Management and Personal Development - develop yourself and your skills in the workplace and everyday life.

Understanding our Students - get to know and understand students from all around the world.

Change - engage in hands-on activities and see how the University of Huddersfield and its environment has changed over the years.
