

Morning Session 1 & 2: Switch On Your Leadership

Speaker: Chip Eichelberger

Sometimes you get so good at putting out fires, you forget how to light them. This is an interactive workshop to get really clear on what is important for your leadership future. It is not a speech. Each participant will leave with a completed form to use every day to live the message.

We will focus on:

- Clarity on your priorities
- Expanding your compelling vision
- What you must STOP doing
- What limiting beliefs you must destroy
- Serving others and creating positive momentum
- Create and live by your Code of Conduct
