

Baltic Photonics 2018: B2B Networking Event

Vilnius, October 17 – 18, 2018

The event aims to create a platform for annual meetings, networking and setting up partnerships for photonics sector professionals.

Up to 15 photonics business leaders from Baltic Sea region states are invited to present their new products with the aim to set up new partnerships, sharing competences, resources and market access for further development of the presented products. The invitees will also have the opportunity to visit prominent Lithuanian photonics research organisations and companies.
