# NATIONAL PREVENTIVE HEALTH & AGING EDUCATION SERIES

WINNIPEG, MB

## ABOUT THE LEADING NATIONAL CONVERSATION ON PREVENTIVE HEALTH AND AGING (NCPHA)

CARP invites policymakers, leading experts, and all concerned citizens to take part in a national conversation about what healthy aging should look like in Canada.

The goal of the series is to highlight challenges and innovations in the field of preventive health. In Winnipeg, expert speakers will focus on adult immunization, physical and social engagement, relationships and inclusion, the experiences of marginalization and its impact on health, dementia and brain health, and more.

This educational series is presented with support from United Way, AGE-WELL, NICE Network, International Federation on Ageing (IFA), Sanofi Pasteur, GSK, Pfizer, Canadian Frailty Network, and others.
