Effective Supervision in a Comprehensive, Continuous, Integrated System of Care

The Cline/Minkoff Comprehensive, Continuous, Integrated System of Care (CCISC) brings new challenges to the practice of clinical supervision. This one-day workshop will use the CCISC model "12 Steps of Implementation" to teach clinical supervisors how to guide clinicians in maintaining hopeful, empathic relationships under enormously challenging circumstances, building open positive collaboration and communication with team members and other providers who may have different perspectives, and sustaining an integrated treatment approach while meeting scope of practice, managed care and other standards.

LEARNING OBJECTIVES

- Explain some supervisory challenges in working with persons presenting with co-occurring issues and disorders
- Define the CCISC "12-Steps of Implementation" as guiding principles for clinical supervision
- Define techniques and tools for integrating these steps and principles in the supervisory process

Your registration includes continental breakfast, beverages, and lunch. The site is wheelchair accessible. Any other accommodations are available upon request no later than three weeks prior to the event.
