More information on Task Force meetings, invite only

Understanding the role of user-generated content in Europeana - Task Force (Lars Wieneke/Susan Hazan)

- Following the first User-Generated Content (UGC) Task Force meeting in Berlin, the group has formalised its goals towards building a repository and point of contact for UGC practices both within Europeana and beyond. The identification of activities and actors who are developing UGC will inform the Task Force and serve to track the evolution of UGC across the Europeana ecosystem.

Public-Private Partnerships - Task Force (Jef Malliet)

- An outline framework for use by Europeana and Network members in launching and structuring discussions with private sector partners was developed before. This now will be integrated with comprehensive descriptions to produce a document in support of decision making.

Archive - Task Force (Kerstin Arnold)

- Develop a more effective role for archives content in Europeana and bring together people from different archives, organisations and projects to align work and avoid duplication of efforts.

Metadata quality - Task Force (Marie-Claire Dangerfield)

- The Task Force would like to explore how we can improve the metadata quality provided to Europeana, and how this provision will improve the end user experience.

More information on strategic work meetings

Strategic Plan – Look at the success model for Europeana

- This session will look at the success model for Europeana, what impact we want to have and how it can be measured.

Strategic Plan - Bridging the gap to the Creative Industries

- The *Europeana Creative* project is bridging the gap between cultural heritage institutions and creative industries through a focused programme of pilots and incubation. In this work session, invited experts and project participants will discuss and debate case studies of creative industry engagement, hoping to draw out strategic themes, trends and principles.

Strategic Plan – Cloud: a value proposition for Content Partners and Aggregators

- This session will look at potential benefits for data providers and aggregators of a Europeana Cloud infrastructure.

Strategic Plan - Network 2020

- The session will challenge your visionary thinking and explore some routes to the future. What is the vision of your institution for 2020? Have you been fully adapting to the digital area? Are you operating as a network organisation of networks?

More information on ad hoc networking meetings

Europeana for education (Steven Stegers)

- The aim of the workshop is to discuss options for Europeana to support education, to think about a strategy for Europeana to positively impact education, identify stakeholders and existing practices and discuss challenges and opportunities related to this.

How to make an App in an hour with Glimworm (Jonathan Carter, Paul Manwaring)

- The Glimworm team will demonstrate rapid publication of digital content (Apps) for smart tabs/phones using their open source software Muse Open Source (the basis of the Europeana Open Culture Apps), Push2Press and the Europeana API. No tech experience is needed.

Horizon 2020 – Creative Europe (Els Jacobs)

- Proposals for the new EU funding programs Horizon 2020 and Creative Europe are due for submission on 1 January 2014. During this meeting participants can exchange ideas, share their work in progress and find possible partners for their proposal.
