

## Saturday, September 9, 2017

- 8:00 am Registration & Continental Breakfast
- 8:30 am Anatomy and Physiology of the cervical spine and vestibular systems.  
Patricia Crane DPT, OCS, FAAOMT  
Janine Brodovsky MSPT, DPT  
Diana Hearn PT, DPT, OCS
- 10:45 am Break
- 11:00 am Screening for dizziness in the acute care setting  
Jigisha Rana DPT
- 12:00 am Lunch
- 12:45 pm Examination and Differential Diagnosis of the Cervical Spine  
Patricia Crane DPT, OCS, FAAOMT
- 2:15 pm Examination and Differential Diagnosis of the Temporomandibular Joint  
Diana Hearn PT, DPT, OCS
- 3:45 pm Break
- 4:00 pm Examination and Differential Diagnosis of Vestibular Dysfunction  
Janine Brodovsky MSPT, DPT

## Sunday, September 10, 2017

- 8:00 am Registration
- 8:15 am Cervical Spine Interventions Lab  
Patricia Crane DPT, OCS, FAAOMT
- 9:45 am Break
- 10:45 am Temporomandibular Joint Interventions Lab  
Diana Hearn PT, DPT, OCS
- 11:30 am Lunch (on your own)
- 12:15 pm Vestibular Interventions Lab  
Janine Brodovsky MSPT, DPT

Saturday September 9th and  
Sunday, September 10, 2017

# Assessment and Treatment of the Dizzy Patient

Hosted by MossRehab

Course Location:  
MossRehab at Elkins park  
60 Township Line Road  
Elkins Park, PA 19027

What do you do when your patient is dizzy? This two day introductory course will instruct therapists on how to assess and treat the dizzy patient. Dizziness can have many sources and this course will give therapists the tools to complete a differential diagnosis, identify those patients whose dizziness can be treated by Physical and Occupational Therapists and successfully treat those patients. Through lecture and lab participants will learn how to apply and interpret various tests and measures and to perform treatment interventions. There will be an emphasis on three common sources of dizziness that are treated by therapist: cervicogenic, temporomandibular and vestibular dizziness.

**Target Audience:** Physical Therapists, Physical Therapist Assistants, Occupational Therapists and Occupational Therapist Assistants.

**Learning Objectives:** At the conclusion of this course the participants will be able to:

1. State three causes of dizziness in patients
2. Perform (3) clinical tests and measures to assess dizziness in patients
3. Describe the anatomy of the vestibular system and how it relates to dizziness
4. Describe the anatomy of the cervical spine and how it relates to dizziness
5. Describe the anatomy of the temporomandibular joint and how it relates to dizziness.
6. Demonstrate (2) treatment interventions for dizziness due to vestibular problems
7. Demonstrate (2) treatment interventions for dizziness due to temporomandibular joint dysfunction.
8. Demonstrate (2) treatment interventions for dizziness

## ABOUT THE SPEAKER

### **Janine Brodovsky MSPT, DPT**

Janine is the leader of the MossRehab Vestibular Program. She has spent her career advancing her knowledge and treatment of persons with balance and vestibular disorders. She holds multiple certifications related to vestibular and dizziness disorders and she is a faculty member at Arcadia University as well as the MossRehab Neurologic Residency.

### **Patricia Crane, DPT, OCS, FAAOMPT**

Trish has over ten years experience working with the outpatient orthopedic population and has focused her expertise on manual therapy interventions for the spine. She has completed her fellowship in manual therapy from Regis University and is passionate about teaching therapists evidence-based interventions to improve outcomes. She is an accomplished teacher and has published several articles related to orthopedic physical therapy care.

### **Diana Hearn PT, DPT, OCS**

Diana is the musculoskeletal team leader at Penn Therapy and Fitness, Penn Partners. She has specialized in the treatment of the temporomandibular joint dysfunction and lectures extensively on this topic, including at Arcadia, Widener and Drexel University.

### **Jigisha Rana DPT**

Jigisha is a Physical Therapist at Einstein Medical Center Philadelphia and is a certified vestibular specialist. Jigisha specializes in screening patients with balance and dizziness in acute care setting and she has worked closely with both the emergency room physicians and medical staff to promote efficient diagnosis of patients with dizziness

Satisfactory completion of the continuing education units consists of full attendance with monitored sign in and sign out forms plus completion of a course feedback form that includes self assessment of learning outcomes.

**Cancellation Policy:** For cancellations up to seven (1) days prior to the course, there is a 25% non-refundable administrative processing fee. For cancellations up to three (3) days prior to the course, there is a 50% non-refundable administrative processing fee. For cancellations less than three (3) days prior to the course, there are **no refunds**. Full policy will be disclosed with course confirmation.

## REGISTRATION

**COST: \$200.00**

**ONLINE:** Registration and payment may be made online at:
