

Clinical Trials at The Christie

An education day for non-clinical scientists

Monday 12th December

Education Centre (Dept 17), The Christie, Manchester, M20 4BX

Are you a non-clinical scientist or research associate looking for a clearer understanding of the clinical trials process?

Intended Audience

Non-clinical scientists, clinical research associates and other research staff who run clinical trials from a sponsor perspective.

The day may also be of interest to health & life sciences students interested in the research or healthcare industries

Introduction

Providing delegates with insight into the clinical trials process at The Christie emphasising the importance of putting patients at the heart of everything we do

The day will address the patient journey from diagnosis, to treatment and follow up and how patients come to a decision to participate in clinical trials.

Topics covered

- Introduction to the Christie R&D division and set up processes
- Review of a patient pathway from symptoms to diagnosis
- Understanding the process of patient treatment decision
- Understanding the clinical trial process, from consent to follow up
- The painless process to setting up clinical trials
- Talks demonstrating different requirements for trials (immunotherapy pathways, early phase trials & radiotherapy trials)

Learning outcomes

Participants will gain understanding of:

- The Christie R&D department structure & processes
- Gaining NHS permission
- The patient journey
- The joint MDT and patient decision regarding clinical trial involvement
- The similarity and differences between the standard and research patient journey
- The relationships between stakeholders (NHS and industry) and the importance of good partnerships for successful clinical trials

Key Themes

- Putting the patient at the heart of what we do
- Ensuring engagement with industry resulting in swift set up processes

Intended Audience

Non-clinical scientists, clinical research associates and other research staff who run clinical trials from a sponsor perspective.

The day may also be of interest to health & life sciences students interested in the research or healthcare industries

Learning style

Lectures & discussion

Fees

£150 Full fee

£100 NHS & MCRC affiliates

£70 Students
