## Intended Audience

Clinical nurse specialists, GPs, oncologists, palliative care physicians

## Introduction

This event will focus on the new NHS England initiative 'Enhanced Supportive Care' (ESC). It will provide guidance on how to deliver ESC successfully and the story behind its implementation.

## Topics Covered

- How to successfully implement ESC in your centre
- Patient experience of ESC
- Supportive care in early phase trials
- Managing symptoms in patients on active anti-cancer treatment
- Cross boundary working
- Rebranding of palliative care

## Summary

- To review the rationale and evidence behind enhanced supportive care
- To change practice in delivery of supportive care and management of cancer patients
- To discuss and debate the future of supportive care in cancer care

## Target audience

Clinical nurse specialists, GPs, oncologists, palliative care physicians

## Learning outcomes

Attendance will result in improved evidence based practice, it should also offer a new way of working to offer the best service for the patient

## Fees

**£90 (£80 early bird rate before 18th July)**
