

GROWING & DEVELOPING HEALTHY RELATIONSHIPS:

Supporting schools to deliver effective sexuality & relationships education

Join us for this exciting full-day event where we showcase recent developments in school-based sexuality and relationships education (SRE).

Hear from a broad range of engaging speakers, meet with a variety of WA agencies who can support you with your delivery of SRE and participate in a range of practical activities that you can take straight back to your classroom.

Anyone interested in effective school-based sexuality education is encouraged to attend. This includes qualified teachers, education students, school health nurses and administrators.

This symposium is applicable to all year levels (K-12) and all school sectors.

Australia Forum on Sexuality Education and Health
